### Indications

- Lessen fine lines and wrinkles
- Firm & tone skin
- Reduce cellulite

### Commentary:

Wonderful is an herbal cream used to tone and firm the skin. Patients are always asking for ways to look younger and this formula was created specifically to do that. Wonderful will tone and firm the skin anywhere on the body and reduce cellulite. It is also especially effective at **removing wrinkles**. Unlike Botox or other topical treatments, after 90-days Wonderful's effects will last, even without further treatment. Continued use will maintain and enhance results. We find this is especially popular with our Acupuncture Facelift patients.

### Course of Treatment

For best results use 1.5cc-2.0cc on or near affected area once daily.
